3T Projector Troubleshooting Steps

* Use the following directions to help get the desktop display to replicate on the projector

1. Make sure projector is on
2. Right-click on desktop and go to ‘Properties’
3. Click on ‘Settings’ tab
4. Click on the #2 monitor
5. If ‘Extend my Windows desktop onto this monitor’ is checked, uncheck it
6. Click ‘Apply’
7. Click the #1 monitor
8. Click ‘Advanced’
9. Click on the ‘Displays’ tab
10. Make sure both displays are green (on) – click the button in the top-left of both monitors to activate both

11. Click ‘Ok’
12. Click ‘Yes’ to keep the new settings
